Participation Form

Name	Date
Team	Course

A. Summarize your role in your team's activities. Be sure to emphasize original ideas which you put forth and how they were (or were not) incorporated into your team's documents, products and processes.

B. For each team member (including yourself), summarize their participation as you observed it, according to the following rating scheme:

1 - Always	2 - Frequent	3 - Often	4 - Sometimes	5 - Never observed
------------	--------------	-----------	---------------	--------------------

Team Member <u>Name</u>	Attends	Participates	Produces	Helps	Performs	Hours per
	required	in	quality	others when		week
(and role, if applicable)	meetings	discussions	results	possible	role	
<u> </u>	meetings	discussions	results	possible	Tole	(estimate)

Lessons Learned:

C. What did you learn about software engineering from this course?

D. What else did you learn from this course?

E. What did you not learn from this course that you expected to learn?

F. What suggestions can you make for future versions of this course?
