

CS390 Assignment Three (100 points)

Assignment 3 contains two parts: grep and sed.

Download the two scripts: grep.sh and sed.sh from class website:

1. Create directory hw3 under your class repository (such as cs390)
2. change into hw3, and download the the following three files (wget or curl)

<http://www.cs.uah.edu/~hlin/download/grep.sh.gz>

<http://www.cs.uah.edu/~hlin/download/sed.sh.gz>

<http://www.cs.uah.edu/~hlin/download/databook.txt>

gunzip the files and add execution permission to grep.sh and sed.sh

3. run grep.sh in hw3 directory first: ./grep.sh
4. run sed.sh in hw3 directory after step 3
5. Use a2ps to print out the output file (file name must be LastName_FirstName.out)
6. Turn in the printout before the lecture begins on the due date.
7. Add hw3 to git repository and push to gitlab by the due date/time
